AS REQUIREMENT FOR COMPLETION
OF PGD IN COMPUTER SCIENCE
SEPTEMBER 2003.

CERTIFICATE

We accept the work contained in this dissertation as conforming to the required standard for the partial fulfillment for the post graduate diploma in computer science.

1. *Dr. GHULAM MUHAMMAD*
   Director
   Computer Centre
   Quaid_I_Azam University
   Islamabad.

   .....

2. *Mr. ABDUL SUBHAN*
   Supervisor
   Computer Centre
   Quaid_I_Azam University
   Islamabad.

   .....

3. *External Examiner*

   .....

ACKNOWLEDGMENT

I am thankful to my supervisor Mr. Abdul Subhan for his guidance and valuable suggestions.

I am also thankful to Dr. Ghulam Muhammad, Mr. Nazim , Mr.Javed Hussain and Mr. Munnawar Tawana for providing the necessary facilities in the department for this project.

I am highly indebted to Brgd (R) Maqsood-ul-Hasan Director F.D.E. Islamabad and Prof. Rafeeq Tahir Director Training F.D.E. for arranging this training programme.

I am highly indebted to my family for their inspiring encouragement during my course.

(MUHAMMAD MAJID)

DECLARATION

I/We declare that this software, neither as a whole nor as a part has been copied from any other source. It is further declared that I/we have completed my/our final project of Post Graduate Diploma in Computer Sciences/Information Technology successfully as a result of my own struggle and research. No portion of this whole work is presented in this report has been submitted in support of any application for any other degree or qualification of this or any other University or institute of learning. If any part of the project and write up is proved to be copied out or there is any duplication of code then I/we will be responsible for the consequences.

Name of Student(s): Muhammad Majid (FDE)

CHAPTER NO. 1

INTRODUCTION

1.1: INTRODUCTION OF COLLEGE.

In 1993,Gordon College Rawalpindi completed a memorable and eventful century of its existence. It is indeed one of the most prestigious, historical and oldest educational institutions of the subcontinent.

In 1893 Gordon College headed by E.E Fife as the first principal, was stared to meet the need of higher education of the area. The college started with intermediate classes and for nine years these classes were held in the present Government Christian High School Raja Bazar, Rawalpindi. The college moved in to its present premises in 1902 and in the same year it was raised to a Degree college.

Gordon College has had a distinctive mission since it's founding in 1893, to provide dedicated individuals with a most comprehensive environment for building a wholesome personality through excellence in education.

The college like other private institutions in the country was nationalized in 1972.

1.2: -PROBLEM DEFINATION

The basic purpose of this work is to solve the problems of staff of the Gordon College, which are faced by them during the admission process for first and

third year classes every year.

Secondly preparation of result of different internal examinations is a time consuming job. At present both the examination and admission procedures are handled manually. This study has been conducted keeping in view various problems faced by the students and the college staff because of huge amount of data handling and due to increasing number of candidates for admission to the college every year.

1.3:-OBJECTIVES:

- To study the problems which does college staff face.
- To find out the drawbacks in existing system.
- To propose steps in order to over come the problems and difficulties.
- To design an efficient admission and examination system.

1.4:-LIMITATIONS:

- Admission system will work only for new admission in first and third year.
- Examination system has been designed for handling only internal examinations.

CHAPTER NO. 2

PRESENT SYSTEM

2.1: - ADMISSION:

Admission policy for admission in first year is different from the policy for admission in third year. So both the cases will be discussed separately. However the general rules are as following:

- ✓ Separate forms must be submitted for each combination/category of various seats.
- ✓ Number of seats for different combinations i.e. groups vary every year.
- ✓ Shifting of form from one to an other combination after the declaration of merit is not allowed.
- ✓ The candidates who have passed their last examination prior to the last supplementary exam will not be considered for admission.
- ✓ A receipt of the admission form must be obtained at the time of its submission.

2.2 ADMISSION IN FIRST YEAR:

- ➢ 98% percent seats are reserved for open merit.
- ➢ 02% percent seats are reserved for disabled candidates.
- ➢ Hafiz_e_Quran will be awarded 20 additional marks for admission.
- ➢ No other quota of seats has been reserved.

2.3 ADMISSION IN THIRD YEAR:

- ❖ No additional marks for Hafiz_e_Quran will be awarded.
- ❖ Preference will be given to the candidates who passed the intermediate examination from the Gordon College.
- ❖ 98% percent seats are reserved for open merit.
- ❖ 02% percent seats are reserved for disabled candidates.

2.4 COURSES OF STUDY FOR INTERMEDIATE CLASSES.

Compulsory subjects for all groups are following:

I. English.
II. Urdu.
III. Islamic Studies.
IV. Pak. Studies.

Elective subjects of different groups are as under:

1) PRE_MEDICAL GROUP.
   Physics,Chemistry,Biology.
2) PRE_ENGINEERING GROUP.
   Physics,Chemistry,Mathematics.
3) GENERAL SCIENCE GROUP.
   Statistics,Mathematics,Economics.
4) COMPUTER SCIENCE GROUP.
   Mathematics,Physics,Computer Sc.

5) GENERAL ARTS GROUP.

(Candidate has to choose three elective subjects from three sub groups for F.A.).

ELECTIVE SUB GROUPS FOR F.A.

a) Sub group no 1.
   Psychology, Civics, Persian, Arabic.
b) Sub group no 2.
   History, Stat, Sociology.
c) Sub group no 3.
   Islamiyat, Economics,
   Education, Ph. Education.

2.5 COURSES OF STUDY FOR B.A/B.Sc.:

Compulsory subjects for degree classes.

i. English
ii. Islamic studies
iii. Pak. Studies

Elective subjects of different groups of B.Sc. are as under:

1) Botany, Zoology, Chemistry.
2) Botany, Zoology, Applied Psychology.
3) Math A, Math B,Physics.
4) Math A, Math B,Statistics.
5) General Math,Physics,Chemistry.
6) General Math, Statistics, Economics.

Elective subjects of different groups of B.A are as under:

1) Economics, Pol_Science.
2) Economics, History.
3) Economics, Stat.
4) Pol_Science, History.
5) Stat, App_Psychology.
6) Psychology, Stat.
7) Urdu, Persian.
8) Islamiat, History.
9) Islamiat, Arabic.
10) Journalism,Pol_Science.
11) Journalism, Psychology.

Every B.A. student is required to take one of the following optional subjects as well.

i. URDU
ii. ISLAMIAT
iii. ARABIC
iv. G.PSYCHOLOGY
v. APP.PSYCHOLOGY
vi. PERSIAN

2.6 EXAMINATION SYSTEM :

- Examination section arranges two major exams every year (December test and Annual examination).

- Only 3rd year class appears in internal annual examination.
- Present principal of Gordon College Prof.Muhammad Saleem Chaudhri intends to hold monthly test of 20 marks for each subject in future.
- Total marks of different subjects vary for different internal examinations.
- Pass marks are 33%.

2.7 DRAW BACKS AND LIMITATIONS OF PRESENT SYSTEM.

- LACK OF ACCURACY.
- SLOW DATA PROCESSING.
- POOR SECRECY.

CHAPTER No: 3

PROPOSED SYSTEM

3.1 OBJECTIVES OF THE PROPOSED SYSTEM.

1) CODES:

Codes will be assigned to reduce the storage and number of typing strokes used to input data. Codes will be easy and small.

2) EFFICIENCY:

Output would be satisfactory and error free. It would be done by some validation checks.

3) SPEED:

The manual system is slow and cumbersome because calculations for each and every thing are done by hand and a minor error in entry may result in a delay of hours. Proposed system will allow user to create delete , modify and retrieve information with greater speed with a touch of button only.

4) USER FRIENDLY:

Proposed system is user friendly. It would be menu driven. Data entry and modification process would be in user_ friendly environment.

3.2 SOFT WARE SELECTION:

- ✓ ORACLE 7.3
- ✓ DEVELOPER/2000 –FORM 5
- ✓ WINDOW 98

CHAPTER No 5

SOFTWARE DEVELOPMENT & IMPLEMENTATION

5.1 INTRODUCTION:

The major task in the process of a computer-based system is software development. The purpose of software development is to transfer the complete proposed system into executable computer-based system. There are number of clearly identifiable steps that are always involved in the programming phase, and these are:

1) Defining the problem.
2) Planning a system.
3) Maintaining the program.

Thus the purpose of programming task is to code, debug and test each program module before and after integrating them into software.

5.2 SYSTEM TESTING:

Following steps have been taken for testing the system.

a) Each phase of the system has been tested.
b) Dummy data was prepared to test all parts of the system.
c) Manual checking has been done.
d) All modules are inter linked.

e) Form designed and other documents generated by the system are accurate and complete in all respect.
f) Comparison between outputs of the new system and the manual system has been made.
g) All processing tabulation is up to the required standard.

5.3 IMPLEMENTATION.

Implementation is the process of transforming present manual system into a new computerized system. There are several options which are listed below.

1) Direct conversion
2) Gradual conversion
3) Pilot conversion
4) Parallel conversion

5.4 PROPOSED METHOD OF CONVERSION.

The most feasible conversion plan that suits best is parallel conversion. It is selected because it provides an opportunity to compare the results of the existing system with the new system. Another advantage of this technique is that the risk of failure of system is avoided.

5.5 TRAINING OF PERSONAL.

The developed system is quite user friendly, so that any can obtain the required information efficiently out of the database, after few days training and practice. Further more in this regard two days training program has been completed for the college staff.

USER GUIDE

1. Folder "1styearadm" which has all the forms and repots must be saved in My Documents in C drive.
2. At the end of every session all entries in the following tables must be deleted.
   A) 'Student'
   B) 'Marks'
   C) 'Form'
   D) 'Bform'
3. At the start of new session , for examination system, fresh data entry in table 'Student' through student data entry form must be made.
4. Operating must be Window 98.
5. Oracle 7 with Developer 2000, Form 5 must be installed in the system.
6. To run the system:
   Click 'Form Runtime' icon. Browse the '1styearadm' folder in My Documents in drive C. Select the "A_Project" file. Give the user name 'sun' and password '.....'. Click OK.
